(*) VALUES TO BE CONSIDERED AS A ROUGH GUIDE ONLY.

(**) Mounted without an air gap behind the FIBRALAC TOP.
Mounted with a closed air gap not more than 22 mm behind the FIBRALAC TOP classification D-s2,d2.
Classification E for any other more restrictive condition. Commission Decision 2007/348/EC.

(***) Mounted without an air gap behind the FIBRALAC TOP, or with a closed air gap behind the FIBRALAC TOP for thicknesses equal or greater than 15mm or with an open air gap behind the FIBRALAC TOP for thicknesses equal or greater than 18 mm.
Mounted with a closed air gap not more than 22 mm behind the FIBRALAC TOP classification D-s2,d2 in thicknesses between 10 and 18 mm. Commission Decision 2007/348/EC.

These physical-mechanical values improve/comply with those established by EN 622-5:2009 European Standard, TABLE 3. Requirements for boards generally used in dry environments.

FIBRALAC TOP meets Class E1 requirements (analysed according to EN 120) as defined in EN 622-1:2003 European Standard.

(SELECT)

Not dangerous product. Adequate ergonomic techniques and IPEs must be used when handling. Dust generated in cutting, sanding, drawmilling and other processes must be extracted from the working environment with the usual procedures in the wood industry as industrial vacuum systems and IPEs use must be observed according to law.
